

FACT SHEET

KVS720R DVR Controller

KVS720R is a 7-inch touch monitor, working as the communication interface between driver, KVS8713HEB APTMS OBU and the control center. It is developed under Android OS, realize the function such as parameters configurations, route selection, receive and send message, play video, etc.

SPECIFICATION

Item	Specification
OS	Android 4.4
Language	Chinese, English, Spanish, etc
CPU	2.2GHz, Quad-Core ARM Cortex-A9
Flash (ROM)	8GB
Memory	2GB
Monitor Material	TFT LCD
Screen Size	7.0' capacitive touch screen
Resolution	1024*600
Card Reader	13.56Mhz, ISO/IEC 14443A/MIFARE card reader
COM Port	2*RS232 for OBU, navigation and standby function
Micro USB	1*Micro USB for debugging and upgrading
TF Card Slot	1* card slot for local map and multiple media info, max 32G
BNC	1*BNC port for video output (CVBS format)
Embedded Speaker	Impedance: 8Ω; Power consumption: 2W
Working Temperature	-20~70°C
Storage Temperature	-30~80°C
Humidity	10%~95%, no condensation
Power Supply	DC5V
Dimension	L190mm*W120mm*H28mm

FEATURES AND BENEFITS

1. Query the working status of MDVR, such as GPS signal, network status
2. Adopts RFID technology, self check-in and record attendance for drivers
3. Information for station info, text messaging and communicating to control center
4. Over-speed alert
5. Driving record will be stored and upload
